

Vocabulary List

Windows 11 with JAWS Lesson 4

Term	Definition	Skills ✓
Flick	A quick, short, gliding touch of the screen with one or more fingers in any direction.	
Swipe	A slower, more controlled gesture like gliding with one or more fingers in any given direction or directions.	
Glide	The movement of a finger around on the screen without lifting it, usually done to explore.	
Pinch	A two-finger inward pinching motion zooms out or makes things smaller for most apps. A two-finger outward pinching motion zooms in or makes things larger.	
Rotate	The movement of one or more fingers in a clockwise or counter-clockwise gesture like turning a knob or dial.	
Tap	A relatively quick touch and removal of one or more fingers on the screen.	
Split tap	A single or double tap performed by a second finger while gliding around with one finger, usually for input while typing with on-screen keyboards.	
Silence JAWS speech	Two-finger tap	
ENTER , JAWS gesture	Single-finger double tap
